- Aspergillus fumigatus
- Cladosporium herbarum

Artuvetrin® Therapy can contain up to 8 allergens/allergen mixtures. Of course it is possible to treat a dog with more than 8 allergens but this means we have to manufacture 2 separate Artuvetrin® Therapies.

Note: This order form contains the most frequent occurring allergens. It is also possible to order other allergens. Information about all the different allergens supplied by Nextmune can be found in our product range brochure. This brochure, as well as the Artuvetrin® Therapy order form, can be ordered with this form, by phone: +31 (0)320 783 100 or by email: info.eu@nextmune.com.

Additional allergens can be filled out under 'Other allergens'.
